1 **push** the cover onto the *bullet*, pass it over the first ridge...

bullet binders are versatile, offering neat, secure binding in which pages can be *replaced* or *moved*.

Follow the 5 simple steps to put your *bullet binder* together.
Start by assembling the cover, then add your contents.
To add or remove pages follow steps 6, 7 and finally repeat step 5.

Should you require any more assistance, please call 020 8670 7416.

2 **onto** the base of the *bullet* repeat with the other *bullet*

5 **press** the cover on so that it sits neatly in the top ridge of the *bullets,* this holds the cover in place

3 **slot** the inside pages onto the *bullets*

6 **to add or remove** pages, first snap the front cover open...

4 **fold** down the cover

7 **either** slot the new page onto the *bullets*, or *lift* the old page off the *bullets*. Finish by repeating step **5**
